

Las Cruces has an aggressive dog bit problem. EDUCATION & PREVENTION IS THE KEY

April's K911 Academy improvements for S.U.P.

Our intention is to entail the help of this community to rebuild this program for the community. The proposed \$30,000 is a low price hoping that we will be able to find folks in the community who will help build/donate supplies ect as hiring a firm with an architect will undoubtedly cost a lot more. These are **some of the things** that are needed according to county code.

1. Architect/Landscape surveyor with P.E. stamp to put in the upgrades to the building plans
2. Traffic analysis to determine how the traffic will impact the neighborhood
3. Soil sample for impact
4. ADA approved parking space
5. ADA approved ramp
6. ADA approved unisex bathroom w/lighted exit signs, bars
7. Septic and piping supplies
8. Toilet
9. Pedestal sink
10. Solar vents
11. Seal the concrete
12. Corrugated metal for the lower walls
13. Reused wood for the upper walls
14. Approved lights, exit signs
15. upgraded electrical for lighting/outlets
16. Bright outside lights for the parking lot and side play yard
17. Additional walk through door
18. Drinking fountain
19. Swamp cooler duct 50ft
20. 300ft X6' Twisted wire fencing
21. 400ft 2" Pipe for yard post
22. 20X50' Shade for yard
23. Tractor work to clear for yard
24. Brick stove backing
